		ALUM	FRP			INTERIOR   EXTERIOR
		ALUM	FRP			
		ALUM	FRP			

**TOTAL # OF DOORS:**

\* Please specify 4" or 6" wall

for trim kit

Inswing doors with FRP on both sides are the same doors as outswing doors with FRP on both sides, the mounting flange just needs to be installed on the interior side of the wall.

**Example: LH Inswing FRP/FRP is the same as a RH Outswing FRP/FRP.**

Inswing doors with Aluminum/FRP are to be installed with mounting flange on the interior side of the wall, resulting with the Aluminum skin to the exterior.
